Interested in Scale Aerobatics?

1. There's going to be an IMAC contest in your area!
2. You are invited to come participate in the Novice class with zero pressure and all the help you could want!
3. Max Airframe size for the Novice class is 97-inch wingspan.
4. Plane can be Gas or Electric.
5. For Saturday only, you will get to work with experienced IMAC pilots and gain knowledge of trimming your airplane and improve your flying skills exponentially!
6. Fly with us on Saturday and let us show how flying IMAC will help build your skills flying R/C aircraft!
